I like to explore different culture and when I was a junior high school student, I have been to Austria to visit my uncle's family. They are living in Bregenz which is near Germany and Switzerland. My uncle took me to visit many different cities together. He even was leading me to Spain. During the time, I experienced a lot in Europe. I like Europe and I hope I can study in Germany to experience the life and culture. To be an exchange student is the best choose. I am learning German to reach the goal.

Thank you very much to host me during the following year. I am looking forward to create the good memories with you together.

Elternbrief

Dear Host Family:

First, we want to thank you very much for giving our son Kevin the chance to become an exchange student in Germany and to participate in your daily life. We are grateful that you will help us to make his wish come true.

Our son is a single child in our family. I am working in the bank and his father has two bread shops. We are a small family.

He is a very open-minded and happy child. Even though he is not child anymore, but a teenage boy, he is still a very joyful person. We are glad and thankful that he lets we take part in his daily life, thoughts and emotions. There have never been any serious conflicts between him and us.

At home, he has some chores- clean his room, clear the trash and hang the laundry to dry.

Kevin's favorite subjects are Chinese, History and PE. We think he is ambitious enough to make great efforts to have a successful year in Germany. He has lots of hobbies and interests, particularly playing basketball and reading, which have given him a lot of joy and self-confidence for years. He also loves to watch movies, listen to music and traveling. He would be very happy to join the school team at Germany high school if it's possible.

Kevin's uncle is living in Europe. After he was visiting Europe twice during the summer vacation, he hopes to explore the different culture more. He is learning German language now and he gets lots of interest in learning this new language.

We hope with this exchange program, Kevin will get chances to know the meaning of life and gain another view of the world. We believe in the coming year he is going to experience an amazing new life in Germany. Even we will miss him for sure but we believe that in the following year you will create good memories together. Finally we would like to thank you again for your kindly care and hospitality. Hopefully you would be our honored guests in Taiwan someday in the future. We wish you all the best.

Best Wishes,

The mother from Kevin 〈CHIH-CHIA〉
