Alina beschreibt sich als ein aktives, freundliches und großzügiges Mädchen, das gerne ihre Freizeit draußen verbringt. Sie spielt gerne mit ihren Freunden Badminton und Fußball oder nutzt ihre Zeit zum Zeichnen, Musik hören oder Grimm's Märchen zu lesen. An den Wochenenden reist sie gerne mit ihrer Familie und genießt die Natur beim Wandern und Campen. Alina freut sich schon sehr auf ihre Zeit in Deutschland, die Kultur kennenzulernen und Deutsch zu sprechen.

## Schülerbrief

Dear Host family

Hello! My name is An-Jun, Teng or you can call me Alina. I am fifteen years old, a senior high school student. I like to try new things, know more about other cultures and learn other languages, and that is why I want to be an exchange student.

There are many friends tell me that Germany is an Industrial developed and Technological advanced country and I really admired it. I read Grimm's Fairy Tales like Snow White, Cinderella, Little Red Cap and Sleeping Beauty, these are very famous stories in the world. I google the information about Germany, and there are pictures of Swan Castle, Cologne Church, and Medieval Street! They are so beautiful. I like your historical Castles and cultures very much. That is why Germany is my first choice. Otherwise I would like to share you about Chinese traditional festivals and delicious food.

There are four people in my family, my dad Eric , my mom Jane , my sister Anna and I. We have a pet dog Pockey. I love with them because they make me feel happy and safe. I especially like to chat with my sister , it always make me laugh. It is really nice to have sisters in the family. We can do fun things and chat together. I also like to play with my dog , Pockey is excited all the time, especially when We are go home. This is my simply family, small but full of love.

My mom usually prepares breakfast and dinner for us. I don't eat spicy food and green pepper. I like candy, dessert, sweet food and any taste delicious food. I wish I can have change taste traditional Germany sweets with you.

I am a friendly girl. I like to make new friends. But at the beginning I might be a little shy, due to arrive to a new environment. I would like to learn many new things with you, so I will ask many questions. In my free time , I like to read novels , listen to music or chat with my friends and family. I like to draw or sing even I'm not good at XD. I also like to go out with my family to relax or close to nature. I don't like to do the exercise, but I have a little bit interesting in badminton.

I am learning German now, and wish I can have great improvement before I arrive Germany. I will do my best to adjust the life in Germany , I will do well and successfully integrand into family. Thank you for accepting me to be part of your family. I look forward living and learning with you.

Best,

Alina.

Hello, I am Alina. I am the first person in front of the photo. And from second to the end is my mom, sister, and dad. We are all excited about this program!

My sister and I are close. It is the best thing to have sibling in the world. Wish I will have a sister in host family as well. We can do fun things together.

We are playing UNO. It is fun to play board game with family. Always laughing.

Having good meal with family and friends. I like to have delicious food with friends and family. We can chat all afternoon.

My school mates and English teacher. It is nice to make friends in the school, I expect myself to step out the comfort Zone and make friends in your school.

School camping. My responsibility was cooking for my team. It is fun to have camping experience with friends.

This is the tallest building in Taiwan! Taipei 101. We were hiking on the mountain near Taipei city. There are many fun things in Taipei, if you come visit us, I can show you many fun places.

I used to learn drawing for 6 years, I love drawing!

My parents will take a go traveling When it comes to long break. We learn new and fun things during the traveling. We respect other cultures and learn from it.

I love reading novels as well. It is a good way to learn and relax in the same time. It is my pleasure to become one of your family members. I like to talk and asking questions! Believe we will have a wonderful year with each other's accompany! ☺

## **Elternbrief**

Dear host family members, It is our pleasure to become friends and family with you in the future year. We appreciate your kindness and generous for hosting our daughter, Alina. Believe it will be a very special year for both of you. We have two daughters, Anna and Alina. Anna is in grade 11<sup>th</sup>, and Alina is in grade 10<sup>th</sup> now. I work in a government unit, and my husband is working in a auto-mobile education training center. We are a simple family live in New Taipei city. We always encourage our daughters to pursue their goals bravely, and we are so proud Alina is willing to step out Taiwan, and attending this program. Alina is 15 years old, and she is an active, friendly, generous, out-going person. She loves to talk to people and share her life with friends. If she does something wrong in your house, please correct her directly, she is willing to learn the way you do in Germany. As a teenager, she might face some frustration in school or friends relationships, however, under appropriate care and communication, she recover from the bad mood soon as well. She is a lovely girl with a positive mind. You will find that it is relax to being with her. Alina used to learn drawing for six years. After she entered 7<sup>th</sup> junior high school, she stop this activity, based on huge academic stress. She likes to reading novels, listening music, singing, watching movies or serious, and playing Lego when she has free time. She plays badminton with friends, and she is interested in football as well. We will go visit extend family members on the weekend, it is important to communicate and share with family. We will go hiking, camping, movie, family dinner when we have long break. We went to several countries, like Japan, Korea, Hong Kong...etc. We train our daughters during the traveling. We wish them to learn how to respect different cultures. Alina is learning German in Catholic Fu Jen University's language center, and she really wants to be an exchange student in Germany. She expects to melt in the life with host family and school soon, so she studies German really hard. Our teenagers usually focus on academic learning, they has to study hard to enter great high school and best university. During this progress, students might miss their direction of future. They do not have time to think about the life. Alina is willing to step out her comfort zone and give herself a chance to do a different choice. We are happy to see her change and will give her our fully support. We expect and trust her that during the coming year, she will extend her horizon, and gain many great memory and experience with your leading and accompany.

Best, Eric & Jane
