Beginn des Programms: September 2018

Zielklassenstufe:

Hobbies und Interessen:

- Sport: Basketball, Rad fahren
- Musik: Schlagzeug und Gitarre spielen, Musik hören
- Freizeit: ins Kino gehen, Aktivitäten mit der Familie, reisen

Sean über sich:

Sean beschreibt sich als einen freundlichen und pflichtbewussten Jungen, der eine positive Einstellung hat. Er ist sehr sportlich und spielt am liebsten mit seinen Freunden Basketball, aber er ist auch ein großer Musikfan und möchte in Zukunft noch weitere Instrumente als Schlagzeug und Gitarre erlernen. Später einmal möchte Sean Automobilingenieur werden; er interessiert sich vor allem für deutsche Autos. Da Sean oft mit seiner Familie verreist und andere Länder besichtigt, möchte er noch viele andere Kulturen kennenlernen. Er hofft, dass er während seiner Zeit in Deutschland nicht nur viel über unsere Kultur lernen, sondern auch etwas über die taiwanische Kultur erzählen kann.

Schülerbrief

Hello!

My name is Tu Yu-Hsiang and my English nickname is Sean. I am 15 years old. I'm friendly, polite and adaptable so I believe that I can get into your family well and soon I'm also responsible and positive so I will try my best to learn as much as I can from the exchange program.

There are four people in my family, my parents, my sister and I. My parents are workers in big company, they value our education a lot and encourage us to explore the outside world. I always share my interesting school life with them. My sister, my favourite person in the family, is studying in the university. I like to chat with her because when I need some advice. We love eating out, visiting relatives and travelling together.

I'm a positive boy, but I would be a little shy in the beginning when I'm in a new surroundings. I love music, but I can't play any instruments so I want rather to learn a instrument in the future. Playing basketball is my favourite exercise. I would go playing basketball with my friends on weekends. I like to travel, I'm willing to experience more other culture.

I have a lot of friends at school and my best friends are Hanada and Yoyo. They are all my best friends, we often o watch film together.

During the coming year, I hope to share the cultures of my hometown to you. Maybe I can prepare some Chinese food for you, but I'm not sure it is allowed. I believe it will be great. Thank you and I cannot wait to see you soon!

Sean

... und auf Reisen in der eigenen Heimat.

Sean war mal in einem Radsport Verein

Elternbrief

Dear Host family,

Thank you for hosting Sean in the coming year!! We are truly grateful for your kindness!!

My name is Julia, a purchasing manager in a US company. Sean's father, Sunny, is a assistant director, working in a computer company in China. Sean is our second child, a 9th grade student. Yu-Tsen is her elder sister, a college student. We removed to Kuanshan about 10 years ago, because his father's job.

We love travelling to oversea to experience many different countries and culture. So, we encourage our children to take chance to go abroad and learn as more as possible. There are many colourful experience and projects which help to develop their thinking and studying.

Sean is an independent and understanding boy. He used to fly along from China to Taiwan, because we are busy at work, sometimes we couldn't fly back to Taiwan together. He also has been to USA for summer camp when he was grade 7th. Those were goof training for him. He is also a sweet and touched boy, he is very understanding and know how to chat with elders and make elders happy. The school classmates and teachers likes him so much~

Sean loves sports. He played baseball, basketball, and attended many competitions since he was grade 6th. He also likes to play drum, guitar and a little piano. He also enjoyed cycling around the island with his team. We wish he can play sports or swim, keep work out when he is in Germany.

Thanks again for your kindly hosting. Also please come to visit us and be our guests in one day. Love and Peace and Joy~

Warm regards,

Sean's mother
